

**TODAY and  
TOMORROW**

## Beware Of The Potential Dangers!

IN a recent editorial, we pointed out the urgent need for completely eradicating all those who are directly or indirectly sabotaging our Sacred Cause. We called upon all patriotic and freedom-loving Indians to slap the saboteurs themselves or hand them over to the League officials who will deal with them suitably. It is a duty which they owe not only to themselves but also to the Sacred Cause which is dear and near to all our hearts. Today it is the duty of all able-bodied Indians to shed their blood for the freedom of our Motherland, and of all rich Indians to sacrifice their all for the same Sacred Cause; but it is the duty of each and every one of us to keep a ceaseless watch and track down all saboteurs so that the sacred mission which we have so cheerfully and willingly undertaken may be fulfilled without the least delay.

We have already enumerated the various classes of people who come under the category of saboteurs and it is not our intention today to repeat them. We know that their number is very small, and that it is rapidly decreasing day by day. But we should not slacken our efforts until the last saboteur is eradicated from our midst. Here we should like to make a broad distinction between those who are clearly dangerous saboteurs and those who are not. While the former group is a very small one comprising enemy agents and spies and other confirmed pro-enemy elements, the latter is bigger and consists mostly of ignorant persons who have been misguided by the former. The dangerous group obviously cannot easily be discovered by the lay public, but the latter group is being relentlessly pursued by the authorities concerned and, one by one, members of that group are being rapidly brought to book. The public, therefore, on their part, need concern themselves only with the less dangerous saboteurs; and to discover them and reform them is not a difficult matter.

As mentioned above, the less dangerous saboteurs are mostly ignorant and misguided persons. They are not vicious at heart, nor unpatriotic and disloyal. They have been merely seized with a spirit of pessimism. They are the weak-minded who have been easily overwhelmed by the insignificant reverses of the past, or the inevitable difficulties of the present, or the hardships that have to be overcome in the future. In their talks and actions, they easily betray their weak-mindedness and this, like a contagion, affects all those who come in contact with them. They are merely groping in darkness and it is the duty of their friends and well-wishers to rescue them by correcting their false ideas and impressions. They are not an incurable lot; they are certainly cap-

## BIG ENEMY LOSSES IN LUZON WAR

One Battleship, Eleven  
Transports & Fourteen  
Barges Sunk, Damaged

Tokyo, Jan. 15 (Domei)—Dal Honyei announced at 4 p.m. today as follows:

"The war situation around the Lingayen Gulf sector of late is:

"Firstly, the enemy is gradually approaching our positions in the mountainous region on both sides of Pangasinan plain from the coastal area.

"Secondly, part of enemy forces landed in the vicinity of Damortis, located north of San Fabian, on January 11. Our ground units, intercepting the enemy forces, inflicted the following damage during the two days beginning Jan. 11: more than 14 landing barges either sunk or heavily damaged and 1,000 enemy troops either killed or wounded.

"Thirdly, our air units are continuing attacks on enemy warcraft and transports. Of attacks on Jan. 12 alone, war results ascertained so far follow: sunk, seven transports; heavily damaged or set ablaze four transports; heavily damaged one cruiser. Our losses comprise 17 warplanes of the Special Attack Corps and two others which have not yet returned.

"Fourthly, our submarine on Jan. 12 sank one enemy battleship in waters west of Luzon Island."

Lisbon, Jan. 12 (Domei)—A Pearl Harbour dispatch received here quoted the Commander of Amphibious Forces of the American Central Pacific Fleet, Richmond Kerry, yesterday as strongly warning that greater American war casualties can be expected in future landing operations in the Pacific theatre of the war.

Future landing operations of American troops in the Pacific war zone can be expected to result in a greater loss of life than that entailed in the invasion of the Gilbert, Marshal and Mariana Islands during the first phase of the war, he said.

Kerry added that such considerations must necessarily prompt the military authorities to formulate new plans regarding the defence of convoys and bridgeheads.

able of being reformed. But, on the contrary, if they are left to themselves and allowed to spread their contagion, they will not only rapidly pass the stage of redemption but, what is worse, they will become potential dangers to the rest, and to the Cause; in which case, it may not be enough simply to REFORM them, it will be absolutely imperative to ERADICATE them totally or in the case of the less dangerous saboteurs,

## No Confidence In Indian Public; No High Posts Either

Protest Against India  
Govt's New European  
Finance Minister

Tokyo, Jan. 14 (Domei)—

Regarding the appointment of Sir Arthur Rowlands as Finance Minister of the Indian Government, succeeding Sir Jeremy Raisman who retired last March as plain indication of the lack of confidence of the British Government in Indians, the Indian Merchants Chamber dispatched a statement to the Viceroy of India on December 23 last year clarifying the attitude of Indians toward the new appointment, information received here recently disclosed.

The statement reportedly said it is most deplorable that a Britisher and not an Indian has been appointed against the wishes of the Indian people. Should the British Government ever attempt to establish a government for Indians and desire Indians to believe in the sincerity and truthfulness of the British people, Indians must be appointed to such important positions as Home, Finance and War-time Transport Ministries.

The recent appointment of a new Finance Minister, the statement added, is nothing less than an indication of British policy which does not care to grant actual administrative power to Indians.

## Dr. Ghosh To Be Freed On Medical Grounds

Lisbon, January 14 (Domei)—The Indian Government has decided to release Dr. P. C. Ghosh, member of the Congress Working Committee, who is in detention at Ahmednagar, owing to a serious decline in the latter's

## Enemy's Wanton Bombing Of Ise Grand Shrines Strongly Condemned

Nagoya, Jan. 14 (Domei)—Finally resorting to deliberate and most outrageous bombings, enemy planes this afternoon bombed part of the sacred compounds of the Ise Grand Shrines which are revered by the whole Nippon people as the most sacred of shrines.

About 2.53 o'clock this afternoon three enemy planes appeared over the sacred compound of the Ise Grand Shrines and dropped bombs on part of the outer Shrine. Since there are no factories or military installations in the vicinity of the Shrines, it is clear the enemy deliberately planned to defile the compounds of the most sacred shrines in Nippon.

This outrageous criminal act has aroused the indignation of the whole populace who are

## 400 MILLIONS OF INDIANS AWAITING SUITABLE TIME TO OVERTHROW BR. RULE

Sanguinary Wars  
In All Sectors Of  
Burma War Fronts

Tokyo, Jan. 14 (Domei)—The War in Burma Sector is assuming larger proportions. Yuan-ting in the area west of the Upper Salween River is now being subjected to attacks by seven divisions of the enemy Yunnan expeditionary forces driving from the east and north, while further north more than three divisions of the enemy are in readiness for action. In the sectors surrounding Namhkam two divisions of the enemy newly-organized First Army, despite more than 1,500 casualties suffered in Bhamo, resumed the offensive on Jan. 6 and since then fierce fighting has been raging.

In the sector east of the Irrawaddy River Motley forces of Chungking and the United States and some two divisions of British-Indian forces, advanced to a point approximately 40 kilometres north of Mongmit where fierce fighting is also under way.

In the Myitkyina railway sector our forces, with indomitable fighting spirit, are battling three divisions of the enemy Fourth Group Army and four divisions of the 33rd Group Army, which intruded to the vicinity of Kani, north-west of Mandalay. In the Akyab area our ground and air units are inflicting heavy damage to the enemy who effected a landing in this sector.

health, according to a New Delhi dispatch. The official communication maintained that the release was made entirely on medical grounds.

now more than ever determined to smash the United States enemy of mankind, culture, and religion.

Tokyo, January 14 (Domei)—Branding the enemy's bombings of part of the Toyoke Shrine of the Ise Grand Shrines as a most blasphemous act, Shigeo Odate, Home Minister, in a statement this evening said the outrageous act of the enemy has roused his deep indignation. He added that fortunately the main shrine remained untouched, but the entire Nippon nation is now burning with extreme fury against the enemy who perpetrated this crime.

Mr. Odate declared the entire nation should now renew their firm determination to smash the enemy who is now resorting to the low act of defiling our sacred shrines.

India Revolution Gives  
New Impetus To I.N.A.  
Declares Netaji

Rangoon, Jan. 15  
Paralleling the new situation and dictating counter-offensives, the Axis powers, Indian, woefully solved to take an active part of the enemy, decide to head of the Provisional Government of Azad Hind and Supreme Commander of the Azad Hind Fauj, in his first press conference held today since he returned from Nippon.

In the forthcoming offensive he said, Indians will no doubt assume a more vital part than in the past and in this connection, he had a series of important discussions with Premier General Kuniaki Koiso and other members of the Nippon Cabinet while he was in Nippon. On his way back, he continued, he visited various East Asian countries where he found much to his pleasure, that and everyone was determined to give his all in protecting the newly acquired freedom.

"I am glad to disclose that already, a few units resubbling in spirit and mission to Nippon Special Attack Corps have been organized among members of the Azad Hind Fauj who, I am convinced, will accomplish daring feats once they are assigned to a mission," he said, adding that even members of the Rani of Jhansi and Indian boys in the Indian National Army are volunteering for the Corps.

In the European theatre, Netaji went on, fierce attacks by crack German troops have completely shattered Anglo-American dream of ending the war by 1944.

In the Philippines sector, indomitable spirit of the Nippon forces is wreaking havoc among enemy Naval forces, proving beyond doubt that quantitative difference in production means nothing when spiritual power is taken into consideration.

Although the turn of events during the past several months have had a detrimental effect on Indians inside India, he declared, deep-rooted hatred harboured by them against Britishers has flared up once again, giving more impetus to the fighting power of the Indian National Army. The 400 million people in India are now awaiting the opportune moment to rise, he added.

Valuable experiences gained on the far-flung front extend from Akyab to Kohima last year have considerably strengthened the Azad Hind Fauj while they are now fully prepared to take offensive with the Nippon forces when the time comes, Netaji assured.

## Enemy Propaganda On Syonan Raid Exposed

Syonan, January 15 (Domei)—Eloquent confirmation of the enemy's fabricated propaganda is the display which began yesterday at the Nanto Hotel, former Adelphi Hotel, of the remains of one of the Super-Fortresses shot down over Syonan during last Thursday's raid.

Here is what Chungking and New Delhi broadcasts declared immediately after the raid: "A substantial force of Super-Fortresses attacked Penang and Singapore on January 11. At Singapore, the Japanese-occupied naval base of Seletar, airfield and shipping were attacked, with heavy damage. In Penang, Georgetown, which is known as the Japanese submarine base, was the target of assault. All planes taking part in this raid returned safely."

40,000 citizens who exhibited on the exhibition on the however, these announcements contradicted the own propaganda, for, they their very eyes, the charred of the wing, fuselage, air-on and other parts of a B-29 which appeared to have returned to its

on display were some 40 parts and graphs taken when one of the here, was hit by anti-aircraft over the city and sent crashing to found, leaving a streak of black smoke in its wake.

Said the Reuter's dispatch: "A large formation of Super-Fortresses for the second time attacked military installations at Singapore. Georgetown, in Penang Island, was also attacked, causing damage on the dry-dock repair facilities, naval yards, houses and other military establishments at both places."

to hundreds of Labour Service men members who worked night and carried to clear the debris and exhumed bodies of unfortunate victims at assault on residential areas, the announcement sounded absolutely absurd.

are these what the Anglo-Americans call military installations? They asked indignantly as bodies of fellow-citizens were brought to the surface, badly bruised and maimed.

## Attack On Nippon Hospital Ship Protested

Jan. 15 (Domei)—In explanation of the criminal nature of the United States aircraft attacking the Nippon hospital ship Maru, Sadao Iguchi, Spokesman of the Board of Information in Japan, today, disclosed that the Nippon Government has lodged a strong protest with the United States Government through the Swiss Government.

Today, the Nippon Government has lodged a strong protest with the United States Government through the Swiss Government.

## Mopping-up Operations In Mengkiang Sector

A Nippon Base in China, Jan. 14 (Domei)—Nippon forces in Mengkiang in collaboration with Mengkiang constabulary forces in mopping-up operations conducted against the enemy during last year accounted for 5,084, including 1,851 Sino-Red troops killed and took prisoner 977 enemy troops including 577 Sino-Red troops.

In addition they destroyed 345 enemy war installations of the light forces and seized war trophies comprising large numbers of light machineguns, rifles and ammunition.

## Violent Fighting In Ardennes; Foe Attempts Foiled

Lisbon, Jan. 14 (Domei)—The battle in Ardennes increased to new violence, stated the German Supreme Command. Enemy attacks south of Malmédy were frustrated, the German communiqué said. It continued that south-west of Velsalm an attempt by a strong enemy formation to break through in the direction of Houffalize was brought to nought. Also in the region east of Bastogne, the enemy made a little headway notwithstanding the greatest concentration of forces. In fighting in the area of Hatten and Rittershopen, in Alsace, the Americans tried once again in eight times to eject German troops from captured Maginot lines. But the attacks collapsed bloodily. From Rheinau to Erstein the entire region is being mopped up from the enemy.

Since Jan. 1, 520 enemy tanks were knocked out on the Western Front or captured and more than 5,000 prisoners taken.

From Central Italy and the Balkans, fighting action of importance was not reported.

In Hungary fighting activity between Balaton Lake and the Danube continues to be small. Soviet attempts to break through from the east into the centre of Budapest under cover of night were frustrated by our tenaciously fighting garrison. North of the Danube several of our assault spearheads joined and further reduced the enemy penetration area. In the Hungarian-Slovakian border region the enemy continued his attacks between Blauenstein and the Hernad River with numerous concentrated divisions at old focal points. Except for a few smaller penetrations where heavy fighting is still raging and attacks were repulsed.

In the East Prussian frontier region the enemy started his expected large-scale attack in the region of Ebenrodeschlossberg after two hours of strong artillery preparation. A concentrated counter-blow by our artillery against concentration areas and battery positions of the Soviet's weakened the enemy's attacking power.

Cities in the Rhine, and regions close to the front in the west were bombed by Anglo-American terror fliers yesterday.

## Enemy Warplanes Raid Central & South Taiwan

Taihou, Jan. 14 (Domei)—The headquarters of the Taiwan Army this afternoon announced that approximately 50 large enemy aircraft about 10.40 this morning penetrated into the skies over central and southern Taiwan from the direction of China. After dropping some explosives the enemy aircraft by 1 p.m. retreated to the west.

Only slight damage was suffered by our side, the announcement added.

## Br. Cruiser, Destroyer Sunk Off Norway Coast

Berlin, Jan. 14 (Domei)—A British cruiser and destroyer were sunk off the western coast of Norway on the night of January 11 when German

## German Thrusts Undermine Foe Striking Power

Berlin, Jan. 14 (Domei)—Alfred Schmalz, German News Agency military commentator, summing up the four-week-old German counter-offensive on the Western Front, today declared that although the German and Anglo-American armies are now exchanging blows without much change in position, the far-reaching aspects of Field Marshal Karl Rudolf Gert von Rundstedt's steamroller advance will become increasingly apparent with the progress of the war.

One of the outstanding successes of Rundstedt's operations, the commentator said, has been to compel the Americans to employ those manpower and material reserves which they had been intending to use at a later date and on a different theatre.

On top of this, the necessity of using such reserves has not only undermined General Dwight Eisenhower's offensive strategy but confronted American President Roosevelt and British Prime Minister Winston Churchill with further political complications, he said.

Although the Germans have withdrawn from some Belgian sectors, they have done so only after destroying militarily important establishments and, by successful disengaging tactics, have set free strong forces for future operations.

Schmalz continued there is no doubt that the Germans continue to hold the initiative on the Western Front. The German High Command, he added, has proved during the past weeks that the West Wall is no mere defence to shelter German troops but a defence from which powerful thrusts can be launched against any point and at any moment.

The commentator concluded that time has now become an ally of the Germans since it will take weeks or months for the Anglo-American forces to reorganize their shattered forces and remap their offensive against the Reich.

At night the British flew in the region of the Pommernian Bight. Night fighters and flak artillery of our air force downed 21 four-motored bombers. London was subjected to our retaliatory fire day and night.

## "Super-Forts" Bomb Own Men On W. Front

Lisbon, Jan. 14 (Domei)—Careless, indiscriminate bombing by 12 American Flying Fortresses on Wednesday resulted in the death and injury of a number of American soldiers stationed at a Western Front village west of Duren, according to a delayed dispatch from the United States Ninth Army sector.

This is the second time that American troops on the Western Front have been bombed by their own planes, the other incident occurring at Malmédy around Christmas, the dispatch said.

naval war-vessels escorting a convoy fiercely repulsed a superior British naval unit, the German News Agency revealed today.

## Super Fortress Crashes Off Malacca Boundary

Malacca, Jan. 12 (Domei)—Local inhabitants had the first experience of witnessing three B-29's over Malacca skies yesterday at about 11 a.m. when the emergency alert was sounded. At first five of our fighters sped in an easterly direction combing the skies in search of the enemy planes. Subsequently three enemy super-forts appeared at an ultra-high altitude, and one of them was seen emitting smoke from the tail-end and gradually losing height. Half-an-hour later it was confirmed that this enemy plane which apparently had been damaged by our ground forces somewhere in the south, had crashed six miles off the Malacca boundary, at Kampong Padang, Mukim Legong Hilir, in Negri Sembilan.

A visit to the spot made by the press section of the Malacca Sendakan revealed that the plane had crashed with a deafening detonation on a padi field. Remnants of the machine were strewn within a circumference of about 500 yards. Kampong people who resided in the vicinity escaped unscathed, the only casualty being a water-buffalo. A coconut tree was uprooted by the impact while a portion of the engine, wrenched from the main body, landed just a hair's breadth from a Malay house. A tag found on the part indicated that it was made in September of last year.

## Br.-Elas Skirmishes On Attica Peninsula

Lisbon, Jan. 14 (Domei)—Skirmishes between British and "ELAS" troops are continuing in various parts of Attica Peninsula, especially in the hills south-west of Thebes, despite the truce agreed upon by Major-General Ronald Scobie, Officer Commanding British Forces in Greece, and "ELAS" leaders according to dispatches from Athens today.

A British column pushing northward along the coastal road paralleling the Tanaita Channel, which separates Attica Peninsula from Euboea Island, has met extremely fierce mortar and machinegun fire from "ELAS" troops holding hilly terrain in that area, dispatches said.

Further south, another British spearhead is reported to have been ambushed in the hills south-east of Livadia and heavy fighting is now in progress. Meantime, British armoured forces are continuing to patrol the area around Athens and Thebes in search of "ELAS" arms, ammunition and hostages, Reuter said.

In north-eastern Greece, the situation in Salonika is reported to be still tense.

## 43 Raiders Shot Down Damaged Over Nagoya

Tokyo, Jan. 15 (Domei)—This afternoon as follows:

"War results achieved during the enemy air raids on the Nagoya area yesterday, January 14, are as follows: shot down nine aircraft; inflicted damage on 34 others. One of our planes has not yet returned to its base."

Tokyo, Jan. 14 (Domei)—Approximately 60 Mariana-based B-29's invaded the Kinki and Chubu districts from about 2 o'clock this afternoon. Flying in several echelons the enemy raiders dropped bombs and incendiaries mainly in the Nagoya area. Our air defence forces extended fierce interception to the enemy raiders and in the Nagoya area alone several enemy "super-forts" were clearly observed as being brought down.

Encountering hot interception, the enemy planes unloaded their missiles at random. As a consequence damage to our military installations was negligible while damage to civilian and residential quarters was restricted to a minimum.

## 5 Additional Emergency Kitchens, Refugee Camps

In addition to the number of Emergency Kitchens and Refugee Camps that have already been established by the Syonan Authorities in the various Police Divisions of the City to cater for air raid victims, five more Emergency Kitchens and Refugee Camps have been set up and kept in reserve for use, states Mr. M. Shinozaki, Kosei-ka Cho, Syonan Tokubetsu-shi, in a communique addressed to the Press.

Following is the list: A. Div.—Chinese Buddhist Association, 21 Kreta Ayer Street; B. Div.—Leong San Temple near Bakual Byoin, Moulmein Road; D. Div.—Heng San Teng Temple, Siat Road; D. Div.—Wang Tong Temple at the back of Tiong Bahru Church, Outram Road; G. Div.—Poh Tay Buddhist Temple, 152A, Charlton Road, Upper Serangoon Road, 6th mile-stone.

## Severe Blows Dealt On Enemy Naval Forces

A Nippon Base in the Philippines, Jan. 15 (Domei)—Continuing relentless, sledgehammer blows on enemy war and other vessels in the Gulf of Lingayen as well as in waters west of Iba, a Nippon special air attack unit on the morning of Jan. 14 accounted for a total of 12 warships and transports sunk or damaged. Seven transports were sunk, four transports set ablaze, and one destroyer damaged, all of which were confirmed by our escort planes.
